Dear Hiring Committee,

I am writing to express my interest in a teaching position within your school district. I am currently completing my graduate education program at Eastern University and expect to graduate in December 2026 with dual certification in PreK–4 Education and Special Education. Since 2020, I have worked with children in various educational and support roles, including approximately three years as a Registered Behavior Technician. These experiences, combined with my student teaching placements, have strengthened my skills in differentiated instruction, classroom management, and supporting diverse learners.

As a Registered Behavior Technician at Wayne Elementary School, Ithan Elementary School, and Radnor Middle School, I collaborated with educators and related service providers to implement individualized supports, address behavioral needs, and promote student independence. This experience shaped my proactive approach to classroom management and reinforced the importance of building positive relationships with students.

Throughout my student teaching placements, I have planned and delivered whole-class and small-group instruction, used assessment data to guide teaching, and differentiated lessons to meet individual learning needs. I have also participated in MTSS meetings, professional development, and collaborative planning. I believe in creating an inclusive classroom with clear expectations, meaningful instruction, and opportunities for every student to grow academically and personally. Thank you for considering my application. I would welcome the opportunity to contribute to your school community and discuss how my experience and dedication to student success would benefit your district.

Sincerely,
Sidney Ryan
